Important Finds in the Vicinity of

The extent of the vein has not yet

In the famous old Swanson, in a south rife of the 6.5 level, and near the outh ownesses lines, an improve body of gold bearing quarts was struck yes-terday. The value runs conmicratly over flow a ton in the yellow noting and is the first strike of gold in that prop-

is the first strike of gold in that property.

It is this diversity of ores all over the district that has enabled Thate mines, with progressive management, to increase its yearly output and to open new mines, while the "bonances" of other camps were forced to close down. From the Physic, which lies a short distance south of the two Swanseas and adjoining the Four Aces, comes news of the discovery of an 18-inch vein of land carbonaies. The strike is in an usualise to a drift from the 275-foot level, near the shaft, and promises to develop into a strong vein of ore.

H. B. Clawson and S. E. Bamberger, of the Builion-Beck directorate, carreduct to the mine today, to arrange for one obligances, which will be begun at once. The air is rife with rumors con-

once. The air is rife with rumors con-cerning a change in the Beck mill.

IN A CHICKEN'S CRAW.

Nugget and Jewiery Found in the Crop of a Barnyard Fowl.

in certain portions of the west reports have been in circulation regarding the finding of gold in the interior workings of ducks and chickens, and these statements have been corrobo-rated to such an extent that now it is beginning to be taken as a matter of course when other rumors of this kind The same thing has happened in Utah

and it was not long ago that an effor was made on the part of Salt Laker to purchase ground of a rancher on the foothills routh and east of the city because of the fact that the chicken cause of the fact that the chickens raised by the farmer in question preferred gold ungests in adding digestion rather than common every-day gravel. Another evidence of the money to be made in the poulity-raising industry was brought to light yesterday, when A. C. Brown of 464 Fourth East street took to Assayer Korty a gold nugget and some pieces of brass jewelry which had been found by one of the family white engaged in dissecting a chicken for table use.

Mr. Brown, in a small way, is a raiser of chickens, and in order to fa-cilitate their growth and also to make the brood happy and contented, he caused a load of gravel to be dumped caused a load of gravel to be dumied in the back yard, and it is presumed that the fowl in question, attracted by the glitter of the yollow metal, took it in along with sundry pieces of brass jewerry which probably had been dropped by children at plar.

The gold nugget, according to Mr. Rorty, is valued at about 50 cents, and m. w Mr. Brown is trying to find out where the load of grayed came from.

TRIED WITH CLOSED DOORS

DIVORCE SUIT OF JOHN TAYLOR VS. MARGARET TAYLOR.

Sheriff Lewis Telegraphs For D. A. Hatfield to Be Arrested-New System of Drawing Jurors-Mining Suit of Cole vs. Edmunds on Trial -Miscellaneous Doings of the

Judge Hiles yesterday rendered his decision in the case of Burnham, Hanna, Munger & Co. against W. S. McCornick and the Salt Lake Equitable Co op Institution, finding the assues for the

The suit was brought to set aside an assignment and sale of certain policies insurance, amounting to \$10,500, made on Jan. 23, 1897, by the Equitable

made on Jan. 22, 1897, by the Equitable Co-op to W. S. McCornick, to pay an indebtedness due him by the Co-op.

The evidence shows that on the policies McCornick collected \$8,341.62, that on Jan. 22, the defendant company was indebted to McCornick in the sum of \$6,233.11 orr an overdraft and also a balance on a note of the defendant company for \$374.82. A corporation known as the Langton Investment company was before this time indebted to McCornick in the sum of about \$2,845 and the Equitable Co-op gave its check in the usual course of business to McCornick in payment of that indebtedness and the evidence showed that the \$2,845 constituted a part of the \$6,243.11 overdraft indebtedness. It was claimed that this was a fraud upon the creditors of the Co-op, because Langton was an officer in the Investment company and also president of the Co-op and that he used the funds of the latter institution to pay the indebtedness of the Investment company.

In conclusion the opinion says, the

company.

In conclusion the opinion says, the evidence does not show that the assignment was made in contemplation of the incolvency of the Co-op, but on of the impolyency of the Co-op, but on the contrary to protect its credit for overdrafts and that the evidence does not show that it was insolvent, but shows that it was embarrased on ac-count of a fire which occurred on Jan. 22, which did considerable damage to 22, which did considerable damage to its stock, but until the attachments, which were thereafter levied by the plaintiff and other creditors had been made, the intention of the directors and managers of the Co-op was to continue the business after the adjustment between it and the insurance companies of the losses it suffered by the fire. His honor did not find from the evidence that anything unfair was intended by the parties in the transactions complained of and judgment was therefore entered for the defendants.

BEHIND CLOSED DOORS.

Divorce Suit of John Taylor vs. Margaret Taylor Heard.

The divorce suit of John Taylor against Margaret Taylor was tried yesterday before Judge Hiles with closed doors. Messrs. C. S. Kinney and Alex terday before Judge Hiles with closed doors. Messrs. C. S. Kinney and Alex. McMaster represented the plaintiff and Messrs. E. D. R. Thompson and Lawrence appearing for Mrs. Taylor. In the complaint it was alleged that the marriage took place in this city on Nov. 18, 1893, and that eight and one-half months afterwards Mrs. Taylor deserted her husband without cause, and refused to live with him.

Mrs. Taylor filed an answer and cross-complaint, denying that she had left her husband without cause, and alleging that he treated her so cruelly

alleging that he treated her so cruelly that she was obliged to leave him and return to her home. She says he falled to provide her with the common necessaries of life, although he was amply able to do so. She further alleged that pose of changing the by-laws of the jurcorporation so as to make its capital stock assessable.

Secretary Curtis has invented a stock ledger book that has been adopted by the Northern Light company as well as by the Chioride Point. By the system employed in getting up this ledger the stock accounts of any company can be very easily kept.

Manager J. J. Corum, of the Red Wing, at Bingham, has written Superinte, agent Ed McCarrick to begin stopling ore for shipment from the two strikes of high grade ore recently made in this property, as it is the intention of the company to ship right along as regularly as possible.

Define the by-laws of the jurcapital along as regularly as possible.

Define the past few days one of the purchase of the purc

A nice point of law has arisen in reference to the drawing of jurors for service in the district courts. Since statchood the jury list for 12 months has been drawn at the beginning of each year from the names on the tax list by the county assessor and the county drawn the panel of jurors for each term of court has been drawn in open court by the sheriff or some of his deputies.

The code, as prepared by the code commission, changes the syntem, and provides that the disclet jurges on or his deputies.

The code, as prepared by the code commission, changes the syntem, and provides that the disclet jurges on or his commission is to do the drawning by Dec. 15.

That is all very well and very plain, but the code does not go into effect until Jan. 1, 1885, and the question arises as to how the jurors for the year lists arises to the obtained, whether by the old system or by the new method as prescribed by the code.

The trial was proceeding when court adjourned until his more from the names that the disclet jurges on or jurge and the code does not go into effect until Jan. 1, 1885, and the question of the present one. In this case it is all earlied by the code of the property under old system or by the new method as prescribed by the code.

The trial was proceeding when court adjourned until his more for the ensuing year, and this commission is to do the drawning by Dec. 15.

That is all very well and very plain, but the code does not go into effect until Jan. 1, 1885, and the question of the present one. In this case it is all earlied and sold by the code of the property under old system or by the new method as prescribed by the code.

The plaintiff, mrs. McKibben, claims the plaintiff, mrs

plan adjourned until today.

It be it the Appeal Dismissed.

The suit of Frank H. Nelden against Smith Powker was put ontrial company's cars on Oct. 16, 185, When she was in the act of alighting from the car at the intersection of Main and Second South streets, the car suddenly and without warning, the plaintiff says, started into motion, causing Mrs. Gilleon to fall from the platform and thereis adopted the jurors so drawn will be ineligible under the provisions of the code. But how is the new system to be put in operation in December, when the law requiring it does not become effective until Jan. 1 of the following yesterday afternoon before Judge Cherry without a jury, Attorney C. Ira Krebs representing the plaintiff, and Attorney James H. Moyle for the de-
